NOTES

PRE-SITE INSPECTION CHECKLIST

The Goal of the Site Inspection is to leave with all of the technical, operational and aesthetic information needed to design and produce the special event you are planning.

First site inspections are generally taken with the client, preferably before a final decision has been made on the site. However, many times the site has been selected before the event manager or designer is hired.

If the site is local, or the event large enough to warrant the cost, a second site inspection may be desirable or even required after the event design has been developed. If possible the event designer may wish to make a site visit alone, for creative purposes.

The following items should be taken on the Site Inspection:

Event Checklist - containing as much information about event as is currently known	
Tape Measure - 3/4" or 1" stiff enough to extend up walls	
Pad & Pencil/pen	
Camera - digital cameras allow easy sharing of images with suppliers	
Site Inspection Checklist*	

The Event Site Inspection Checklist along with the completed or partially completed Event Checklist is the most important element you must take on a site inspection!

Crisis Chain of Command: _____

Media Contact: _____

EMERGENCY CONTACTS

First Responders: (who) _____
Fire Department: (How far away?) _____
Security: _____ Police _____
Hospital: _____ Other _____

1) Risk Analysis

When Completed? _____

When Communicated? _____

To Whom? _____

a) **SWOT Analysis** (Strengths, Weaknesses, Opportunities & Threats) -- typical component of any special event management project; concentrate on risk management elements.

Strengths	Weaknesses	Opportunities	THREATS
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

b) **GAP Analysis** -- typical component of any special event management project; concentrate on risk management elements.

Elements not yet addressed that could pose problems (ex., rain on a festival - solution: a tent)

d) **Threat Assessment:** What are chances of? What is **back-up/contingency?**

i) **Natural Disaster:**

- high wind
- earthquake
- tsunami
- forest fire
- snow, ice, hail
- Flood

Contingency _____

ii) Human Initiated

- emergency medical
- fires
- chemical spill
- bomb threat
- terrorism
- extreme violence
- economic espionage
- labor issues
- Theft

Action required _____

iii) Event Specific show-stoppers

- Technical (burned out projector lamp)
- broken microphone
- power outage
- loss of internet
- lack of proper **permits**
- talent no-shows

Avoidance/Corrective Action _____

iv) Threats Against Persons -- requires professional advice & training*

Level One: routine hazards

Level Two: public irregularity, interaction with security or police

Level Three: veiled threat; direct threat with no previous history;
no mental health
records

Level Four: direct threat with means to carry it out; past history
of violence; displays weapon

Level Five: direct threat with previous attempts or efforts, solid
investigation shows weapons and propensity to
use
weapons or acts of violence, or
explosives

* seminars and
training
are available

Response to Level One _____
Level Two _____
Level Three _____
Level Four _____
Level Five _____

c) **Event Risk Profile** -- determine the likelihood of negative action or occurrence

Risk Factors:

High profile, large attendance, celebrity participation, inherently risk prone venue, theft susceptible items, potential protestors, easy access venue, history of controversy, potential labor disputes, commercial or industrial espionage threat, attendee demographic with history of trouble.

- i) **Low risk:** none of risk factors above
- ii) **High risk:** more than one of risk factors above
- iii) **Medium risk:** judgment call

Risk Analysis: _____

2) Emergency Management Plan (EMP)

Design an EMP appropriate to the level of risk of your event.

a) **Anticipate** and **prevent** negative occurrences

- i) **Low risk:** design a standard emergency management plan, train staff
- ii) **High risk:** hire special event security firm to design and implement a security plan.
- iii) **Medium risk:** consult with a special event security firm help write security plan and make recommendations

Action _____

b) **Mitigate** negative effects of occurrence

- i) **Low risk:**
 - Establish a standard emergency management plan (EMP) _____
 - Have sure staff is familiar with and rehearsed in EMP _____
 - Staff knows venue EMP _____
 - Staff knows first responders and contact numbers/methods _____
 - Staff trained in CPR & Heimlich maneuver _____

ii) **High Risk:** hire a professional special event firm and/or consult with appropriate law enforcement authority.

Date action Taken: _____

iii) **Medium Risk:** consult with a professional special event firm and/or consult with appropriate law enforcement authority.

Date action Taken: _____

c) **Communicate** effectively to minimize negative public relations effects 5 of 5

i) **Internal Communications** -- have a plan for orderly communication to stakeholders, including contact information; or establish contact plan with an emergency notification firm.

Action Taken _____

ii) **External Communications** -- Your event manager may *not* know that poor communication can make the situation worse. Make sure there is communications chain, with attention to media relations.

Establish communications plan authoritatively, train and rehearse staff.

Action Taken _____

d) **Transfer Risk**

i) Insure against loss -- do an insurance audit of existing coverage

Date last insurance audit completed: _____

ii) Confirm all suppliers, contractors and venue are adequately insured

Certificates of insurance received from:

iii) Consider event insurance yes_____ no_____

e) **Implement EMP**

i) Communicate EMP to stakeholders, venue and onsite personnel

Date Completed: _____

ii) Train staff

Date Completed: _____

DISCLAIMER: This document is not finished nor definitive, but is intended as a guide for the event professional to construct his or her own checklist.

Special thanks to Kevin Mellot of ERASE ENTERPRISES LLC, for consultation and Contributions to the Risk Management Checklist. Shortcomings and errors are my fault.
